THURSDAY - EVENING, JANUARY 17.

Popularizing the Four Per Cents.
TREASURY DEPARTMENT, Jan. 16, 1878.

The Secretary of the Treasury hereby gives notice that, from the 26th instant, and until further notice, he will receive subscriptions for the 4 percent, funded loan of the United States, in denominations as stated below, at par and accrued interest in coin.

The bonds are redeemable after 30 years from July 1, 1877, and bear interest, payable quarterly, on the 1st day of January, April, July and October, of each year, and are exempt from the payment of taxes or duties to the United States, as well as from taxation in any form by or under state, municipal or local authority.

The subscriptions may be made for coupon bonds of \$50, \$100, \$500 and \$1,000, and for registered bonds of \$50, \$100, \$500, \$1,000, \$5,000 and \$10,000. Two per cent of the purchase money must accompany the subscription, the remainder may be paid at the pleasure of the purchaser, either at time of subscription or within thirty days thereafter, with interest on the amount of the subscription, at the rate of four per cent, per annum, to date of payment.

Upon the receipt of full payment the bonds will be transmitted free of charge to the subscriber, and a commission of one fourth of one per cent, will be allowed upon the amount of subscription, but no commission will be paid upon any single subscription less than \$1,000.

Forms of application will be furnished by the treasurer at Washington, the assistant treasurers at Baltimore, Boston, Chicago, Cincinnati, New Orleans, New York, Philadelphia, St. Louis and San Francisco and by the national banks and bankers generally. The applications must specify the amount and denominations required, and for registered bonds, the full name and postoffice address of the person to whom the bonds shall be made payable.

The interest on the registered bonds will be paid by check, issued by the treasurer of the United States, to the order of the holder, and mailed to his address. The check is payable on presentation, properly endorsed at the offices of the treasurer and assistant treasurer of the United States.

The payments may be made in coin to the treasurer of the United States at Washington, or assistant treasurers at Baltimore, Boston, Chicago, Cincinnati, New Orleans, New York, Philadelphia, St. Louis and San Francisco.

To promote the convenience of subscribers, the department will also receive, in lieu of coin, called bonds of the United States, coupons past due or maturing within thirty days, or gold certificates issued under the act of March 3, 1863, revised statutes of the United States, to receive deposits on account of this loan under regulation to be hereafter prescribed.

JOHN SHERMAN,
Secretary of the Treasury.

How to be beautiful. "How can I be beautiful?" Every boy and girl, man and woman, wants to know that. Here is Mr. Emerson's beauty recipe: "There is no beautifier of complexion, or form, or behavior, like the wish to scatter joy and not pain around us."

Do you suppose that recipe will work? Think of the most beautiful people you know. Ah, I know some one would say "mother." Do you not think these people are those who try very hard to make others happy? I know very many beautiful people who would have remained very plain had they sought only to please themselves.

We want to try Emerson's rule for becoming beautiful, so it will not do to forget that "There is no beautifier of complexion, or form, or behavior, like the wish to scatter joy and not pain around us."

But we would like to have him tell us what things last long.

He is all ready to tell whoever wants to know. "Beauty is the quality which makes to endure. In a house that I know, I have noticed a block of spermatic lying about closets and mantel-pieces for twenty years together, simply because the tallow man gave it the form of a rabbit; and I suppose it may continue to be lugged about unchanged for a century. Let an artist draw a few lines or figures on the back of a letter, and that scrap of paper is rescued from danger, is put in a portfolio, or framed and glazed, and, in proportion to the beauty of the lines drawn, will be kept for centuries." And there are beauties of heart, mind and character, that do not meet the eye, but are none the less powerful in "making to endure." - Julia E. Sargent, St. Nicholas for February.

A CONVENIENT apparatus for the sick room where cold drinks are wanted is recommended by "Les Mondes." It is made by placing two vessels (presumably of glass,) one within the other, and filling the inner vessel with a solution of nitrate of ammonia. The outer vessel may be a goblet, and the inner vessel formed in the shape of an inverted truncated cone, and has a cover that is large enough to cover the goblet. For a goblet of water 150 grammes of the nitrate of ammonia are placed in the inner vessel, and water is added till it is filled. To hasten the action, the solution should be stirred as the water is put in. The water in the goblet is soon reduced about 22 degrees Fahr., when the inner vessel may be removed. To use the solution again it is only necessary to spread it in the sun till the water evaporates and the nitrate recrystallizes. - Scribner for Feb.

A LIQUOR DRINKING CLUB. - For the past three years the town of Warsaw, N. Y., has been strictly a no-liquor town. No matter for what purpose the liquor was needed, it could not be had for love or money in the place. There has been formed there within the past few weeks an institution called the Warsaw Union Club, which has for its design the evasion of the local option laws of the town. The society consists of a president, secretary and treasurer, besides an executive committee. Applications for membership have already been received to the number of one hundred. The initiation fee is fifty cents, for which checks are issued in five cent tickets. The club room is stocked with all kinds of liquors. The rooms are only accessible to members and their guests.

Mrs. Elizabeth F. Lovell made her appearance at the Mother Mine, at Deadwood, yesterday, and ordered the men at work therein to leave the mine, at the same time drawing a six shooter to enforce her demand. The men withdrew, when she cut down the windlass and threw the ore car down the hill. One of the owners of the mine began expostulating with her, when she again drew the revolver and fired, but with no other effect than to convince the miners of the earnestness of her intentions. The miners subsequently had Mrs. Lovell arrested.
